65. CARTOON FORUM MOVES TO CATALUNYA.

Cartoon Forum 2007
Catalunya, France
Sept. 19-22, 2007

Every year more than 250 potential investors -- all interested in animation -- attend the Cartoon Forum. This includes more than 100 broadcasters and 150 investors/video editors who have the advantage of getting a sneak preview of the latest animation projects for the television from 31 different European countries.

More than 300 projects (for a total budget of more than 1 billion EUR) presented at the Cartoon Forum have secured their financing and are now in production or being broadcasted worldwide.

The concept, created by CARTOON, runs very smoothly. The Forum provides European producers, broadcasters, distributors and investors with a fortunate occasion to negotiate and conclude business.
